

## Cling & Clear Stamp Sheets: Helpful Information

### **Cling & Clear Stamp Sheets (Items #7632 and 7633)**

These sheets will accept cling and clear stamps. Storage sheets come with a protective film on one side of each sheet. Remove the protective film before storing stamps.

### **Magnetic & Clear Stamp Storage Sheets (Items # 7630 and 7631)**

The *front face* of this storage sheet will accept metal dies and cling stamps. The *back face* of the magnetic sheet will accept clear and cling on stamps only. The back face of the magnetic sheets come with a protective film that must be removed. The front face does not have any protective film. Do not attempt to remove anything from the front face of the magnetic sheet.

### **Storage and Cleaning Tips:**

- Keep cling and clear stamps clean and dust free for optimal adherence to storage sheets.
- Cling and clear stamps can be cleaned with a lint roller to remove dust.
- Use plain water to wash stamps. Do not use soap, as the residue can reduce cling.
- We understand that Stampin' Up stamps require the use of the clear cling label to ensure cling.
- Replace weak cling with new rubber stamp mounting, such as Static Cling EZ Mount Mounting foam.
