Tools & Supply List

This course focuses on learning how to use the Bind-it-All with confidence and creativity. For the most part, we will be focusing on tool techniques, however, you will be given the creative license to choose themes and papers in creating your projects. Supply lists for the class samples are provided for reference. It is my hope that you will find use for papers and embellishments already in your supply, as well as other "punchable" items.

A modest class kit is needed to complete some of the projects and is available at a discount to registered students. (See below).

Tools & Supplies:
- Zutter Innovative Bind-it-All V2.0
- Zutter Round-it-All R5 (Optional)
- Zutter Dreamkuts (Optional)
- Scor-it Board (Optional), or other scoring tool
- Scor-it A2 Envelope Template (Optional)
- Basic scrapbooking tools and supplies, such as: paper trimmer, scissors, craft knife, sanding or distressing tools, liquid adhesive, permanent tape runner, ink, or chalk to match your paper choices
  - Note: One project uses a decoupage type adhesive; Beacon's Liquid Laminate recommended

From your stash:
- Scrap chipboard or cardboard pieces in various sizes
- Selection of cardstock, patterned papers of your choice (*double*-sided patterned paper is generally recommended for versatility in creating mini books)
- Ribbons, embellishments, to coordinate with the paper themes you choose for your projects (more specifics on quantities will be provided prior to each week's lesson.)

Tools & Supplies Available from Zutter:
The supplies in the "Basics" Class Package are needed to complete the projects for this course. Optional tools are made available at a discount for registered students.

Go to www.binditall.com and click on MCC Supplies at bottom of left menu.
